## Message from the Principal

Happy New Year! Many of our students have had a difficult time with the switch from PLATO to Edgenuity the software program that we use for credit recovery. In speaking with many of our students, although the program does take the students longer to complete, the students are saying that they are learning more through the interactive methodologies being used.

We are still offering extra time for students to get into the IMPACT labs afterschool each day, Monday through Thursday for two extra hours. We also offer lunch tutoring everyday, Monday through Friday.

We are almost half way through the school year. The semester ends on December 20th, and the third semester begins on January 7th. Over the winter break, I am hoping students will spend some time reading and/or taking advantage of Khan Academy, a program that every student has access to that helps prepare them for important upcoming exams, including the SAT and PERT.

**Congratulations to Mrs. Bohanan (Left) and Mrs. McCulley as our Teacher of the Year and Non-Instructional Support**

## UPCOMING EVENTS
